PROJECTS

1. PORTFOLIO
As a skilled React frontend developer, my portfolio showcases my expertise in creating engaging and interactive user interfaces. With a keen eye for design, efficient coding pratices, and a passion for delivering seamless user experiences, my portfolio highlights my dedication to creating cutting-edge web applications

3. LION_HEART FOOD ORDERING APP
Deployed URL 🔗

LION_HEART is a React.js-based food ordering and delivery app with four components: HOME, ABOUT, CONTACT, and login pages. It has an intuitive add-to-cart feature, offline functionality, shimmer effect, live API fetching, seamless navigation via React Router DOM, Redux Toolkit for state management, and Parcel for optimized code delivery. It offers a robust and user-friendly experience.

4. URBAN THREADS FASHION E- COMMERCE
Urban Threads: your ultimate fashion e-commerce app built on Shopify. Discover trendy fashion for men, women, kids, and accessories. Explore a wide range of clothes with color selection, add them to your cart, and enjoy a seamless shopping experience.

5. HOTEL BOOKING WEBSITE
In my project, I created a hotel booking website using Wordpress. I utilized helpful plugins like Elementary to enhance the functionality and customized the design using Astra themes. once completed, I depolyed the website on Digital Ocean for reliable hoisting and optimal performance.

2. LIVE WEATHER APP
Deployed URL

Live search Weather App using react functional components,React Hooks, React fetch API
